

# Speak, Speak, Speak about Challenges

## PRESENTATION

- Prepare a four minute presentation about Challenges.
- Pick a topic below or decide on your own.
- Plan, Prepare, Present (see page 10)
- Evaluate (see pages 10-11)

### Challenging the Unknown – The Life of a Great Explorer

- Why do people explore?
- Find an explorer (Christopher Columbus, James Cook, ...)
- What did he/she do and why?
- Did/do we explore in the Faroes?
- Do you want to go exploring?

### Challenges of Nature

- What can be the challenges of nature?
- Find an example (hurricane Katrina, the Tsunami)
- What happened, and when?
- How do we explore now?
- Do we have natural challenges in the Faroes?
- Did you experience one?

### Challenging Me

- How would you define a challenge?
- What are the pros and cons to a challenge?
- How did you challenge yourself and why?
- What is your advice for people when they take on a challenge?

## DISCUSSION

- Form a small discussion group and choose one of these statements to discuss.
- Plan, Discuss, Evaluate (see page 9)

### Not our Problem

The challenges of the Third World are not our problem. We should concentrate on solving our own problems before helping out in Africa.

### Special Schools for the Mentally Challenged

Students who are mentally challenged (e.g. do not learn as fast as others) should go to special schools or in special classes. That would be better for them and for 'normal' students.

Remember to listen to **Tam's Tricks**
